* As shown on original document. Models were routinely exported on demand.

** Suspect error on original document. The model was probably intended for the UK.

*** Probably imported to other countries in limited numbers. Germany is known to have imported a few.

**** My addition. Confirmed as a UK model.

***** Large numbers of 5X8 IT175J's were 'grey' imported to the UK and other countries.

***** My addition. Missing from Yamaha document.
